

Managed Internet Services

Cost effective, cutting edge technologies for business, backed up by 24/7 technical support.

Our internet services are second to none. We utilise the services of a UK based state-of-the-art, secure data centre for all our technical internet service requirements. This ensures we can offer the latest technologies at very competitive prices and ensure continuous service quality for our customers.

We aim to take the complexity out of providing the technical services you need for your business, thus leaving you to concentrate on your core business objectives.

We offer a wide range of internet services, including:

- Domain Name Registration and Management
- Web Site Hosting, on Windows or Linux Servers
- Dedicated Servers
- E-Mail Accounts, including business-class Microsoft Exchange
- ASP, ASP.NET, PHP and CGI Scripting
- MySQL and Microsoft SQL Databases
- Folder Password Protection
- FTP Accounts
- SSL Secure Web Space

In today's market, your business needs a high level of technical internet services to effectively compete. Let us take the complexity out of this process, by utilising our managed internet services.

About WIZZOO

- Ongoing Personal Support

Our customers value the personal approach and the fact that we take care of all the technical aspects of delivering their business communications.

Please contact us for further information and to find out how we can help and support your business.

Cutting Edge Technology

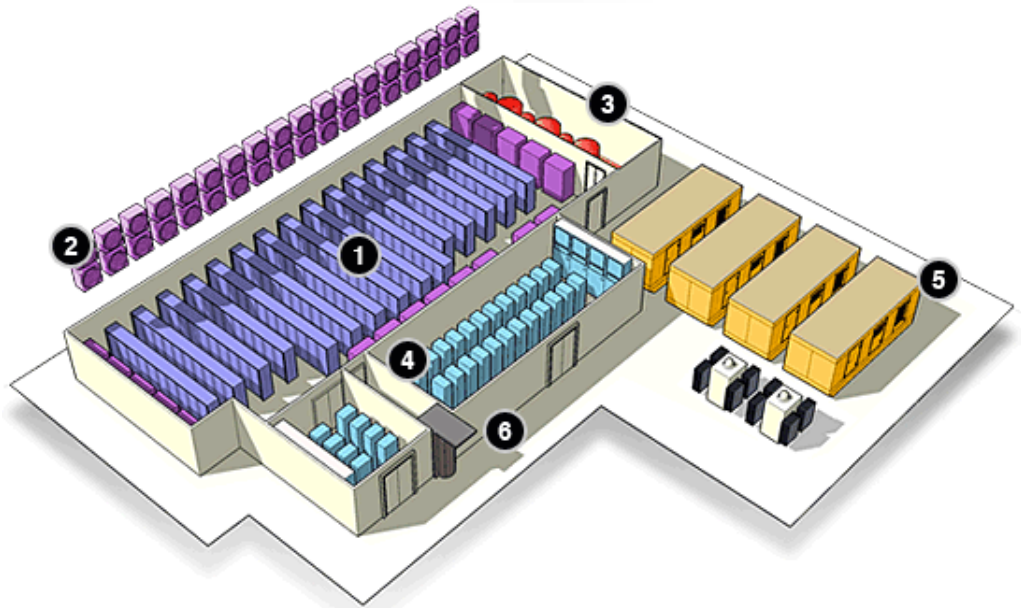

Secure Data Centre

24/7 Technical Support

Secure Data Centre

1. Server Racks
2. Climate Control
3. Fire Suppression
4. UPS Systems
5. Backup Generators
6. Security

Two state-of-the-art data centres house thousands of the latest web and mail servers, maintained 24/7 by an expert team of experienced engineers.

Cost Effective

Our internet services are priced extremely competitively, with no detriment to the level of technical capability or service performance. We also price our internet services in a simple and transparent way, so that there are no 'hidden' costs and nasty surprises.

Domain Names

Domain names can be registered on your behalf (subject to availability) with a wide range of domain suffix - for example .co, .com, .co.uk or .org.

A standard .co.uk or .com domain name registration and management costs **ONLY £22.50** each per annum, which includes the domain administration and server configuration (including e-mail accounts) for the year.

Domain privacy is also available for £15.00 per annum for each domain name, whereby your details are not listed on the domain name whois record.

Web & E-Mail Server Hosting

We offer both Windows and Linux web server hosting, as well as business-class Microsoft Exchange server e-mail accounts.

We offer two comprehensive hosting packages on Windows or Linux servers. Our Standard Hosting Package is suitable for most small to medium sized business at **ONLY £60.00** per annum (only £5 per month).

If your business requires unlimited web space and you anticipate to receive a large amount of site visitors, then our Advanced Hosting Package at **ONLY £249.00** per annum (only £20.75 per month) would be required.

Microsoft Exchange Server e-mail accounts are also available for **ONLY £120.00** per annum (only £10.00 per month) for each e-mail account.

Call us today on 0844 504 8400, or contact us by email at info@wizzoo.com to learn more about our Managed Internet Services.
